OVERSEA BIDS FOR AMERICAN GOODS

New List of Opportunities Prepared for Manufacturers and Exporters.

TIPS ON ENGLISH SYSTEM

Efforts of British Government to Extend Trade Are Set Forth.

Below are oversea business opportun! ties for American producers who care to extend their export lines.

Mention has been made in this column of the German methods of capturing trade in China; also of English manufacturers organizing to follow in the Germans' footsteps. That the English Government is alive to oversea opportunities may be seen from the following extract headed "Oversea Markeis" from the Government Board of Trade Journal, which reads as follows:

One of the most important conditions

Kaffir imps. The customs duty is 20 per cent.

372. A business man in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a firm in the United States who is acting as purchasing agent for a f Mention has been made in this column

here is a considerable field for official or semi-official assistance. Most of the great exporting countries of the world have systems for supplying commercial

Special Commissioners

The Board of Trade has frequently in the past despatched special commissioners to examine particular markets. Such missions have been sent to South and Central America, Canada, Australia. South Africa, Persia, China and Russia.
In these cases the commissioner has been charged with the duty of reporting on the prospects of British trade as a whole, but the growing intensity of the whole, but the growing intensity of the analysis of the same of the same facturers of the same facturers of the same of the

been acted upon by the United States for some time past. Developments accordingly have recently been made on these lines, three technical investigators having been sent last year to Spain charged with making inquiries with respect to a limited range of goods.

British trade commissioners and commercial attaches in various coulntries overseas have recently urged with some frequency the necessity of British exporters sending expart investigators to examine markets abroad. It was urged that in order to make these investigators to examine markets abroad. It was urged that in order to make these investigators to examine markets abroad. It was urged that in order to make these investigators to examine markets abroad in the support of the sale of some time for the sale of the sa

ions effective it was desirable that the investigator should be selected by the trades concerned and that steps should list

ter was considered by a sub-committee of the late advisory committee to the Board of Trade on Commercial Intelliwhich was required to report in which was required to report in which was required to report in dustries efforts should be made to induce manufacturers to combine or federate for the promotion of their joint interests in relation to their joint interests in relation to their export irade, especially for the appointment of the president of the board of public works of a city in Lialy wishes to be paid in communication with American manufacturers which could furnish electrical Wachines for unleading ships, and expectation in the overses probably for discharging cost and grain. which was required to report in travelling investigators in the oversea markets, and on the nature of the assistance which the Board of Trade could render in facilitating such combinations. The sub-committee took evidence from a number of trades and also considered the stans taken by other computation in the sub-committee took evidence from a number of trades and also considered the stans taken by other computation in the the steps taken by other countries in the of associations for investigation DIRECT STATE TAX MANDATORY and export.

Export Associations.

Export Associations.

As a result of its investigations the sub-committee recommended that the Board of Trade should actively take up the question of facilitating the formation of export associations of manufacturers by placing before representative meetings of manufacturers in such trades the advantages of cooperation for export purposes and the results obtained by such action by other countries, by offering to defray part of the cost of the meetings of the executive committees of such export associations to approve oversea markets, and by appointing officers to attend the meetings of the executive committees of such export associations and advantages of the export of the investigators should be supplied immediately to members of the exposes of the investigators and that the reports of the investigators and that the reports of the investigators should be supplied immediately to members of the associations and should be available to the trade generally through the Board of Trade should contribute to the exposes of the investigators should be supplied immediately to members of the investigators should be supplied immediately to members of the investigators should be supplied immediately to members of the investigators should be supplied immediately to members of the forests.

The sub-committee considered that the exposes of the investigations, and that the reports of the investigations, and that the reports of the investigations and that the exposes of the executive committees of the associations and should be available to the trade generally through the Board of Trade should contribute to the exposes of the executive committee to the expose of the investigations, and that the reports of the investigations of a considere markets. The Board of Trade accepted the report and appointed a committee to

carry the recommendations into effect. The first investigation which is being and allied trades in the South American markets. The Department of Overseas Trade (development of intelligence)

dock will not be the only investigator in the field. Already the National Jewellers Board of Trade of the United

Jewellers Board of Trade of the United States, acting in conjunction with the Department of Commerce, which is sharing the cost with the trade, has sent an expert in jewelry on a two years tour of the Latin States.

Addresses of persons and firms mentioned are reserved, but may be obtained through The Sun's Questions regarding published items should be on separate sheets, a sheet to each item, and the number of the item should in all cases be stated.

all cases be stated.

THE SUN does not furnish credi ratings or assume any responsibility as to the standing of business men or firms abroad. The usual precautions should be taken in all cases.

Trade Opportunities.

271. A firm in South Africa desires to place an order for 5,000 dosen lamps made of brass or cheaper material with brass plating. Prices should be quoted as low as possible. Hefore the war the price of these lamps was from 14 to 60 cents per dozen, and retailing at 12 cents each. The firm could now pay \$1 per dozen CNew York) or \$144 per dozen at destination. The lamps should be packed one dozen in a paper box. These lamps are known as Kafiir lamps. The customs duty is 20 per cent.

which reads as follows:

One of the most important conditions for increasing an existing or obtaining a new export trade is that accurate information should be available as to the conditions and prospects for the sale of particular goods in the oversea markets concerned. Experience has shown that here is a considerable field for official or semi-official assistance. Most of the successful assistance in this country destres to secure an execute of a good line of nickel plated hathroom accessories, such as towell lars, some sponge and tumbler holders. He wishes to sell this line of merchandise in the River Plate district.

375. An agency is desired by a man in Australia for the sale of hardware such as builders. He will be a successful as a s

semi-official assistance. Most of the great exporting countries of the world have systems for supplying commercial intelligence to their trading communities. Generally speaking, they are based upon the reports sent home by official representatives resident in oversea countries.

Such official representatives, however, are not necessarily men with actual business experience, and even where the representatives do possess experience in one or another class of business, they cannot be in a position to furnish reports as experts upon all of the large variety of trades with which they may be concerned. It is necessary, therefore, to supplement the information they supply by data from other sources.

Special Commissioners.

Importing of Hides.

379. A business man in Italy wishes to tanned hides to.

and gloves. He also wishes
shoes for women.

350. The London branch of a firm in
France desires to purchase agricultural
machinery of all kinds.

351. A firm in Jamsica is in the market
for machinery for manufacturing corn oil
calid

made it increasingly desirable that a market should be surveyed in respect of any particular industry by men with specialized knowledge.

Indeed, the principle is one which has been acted upon by the United States for some time past. Developments accordingly have recently been made on 335. A man in Australia desires to the cordingly have recently been made on 335. A man in Australia desires to the cordingly have recently been made on 335. A man in Australia desires to the cordinal content of the content of the

rades concerned and that steps should a taken to give the investigator an of-cal standing.

In the early part of last year the matter was considered by a sub-committee of the late advisory committee to the late advisory committee to the this dram

Pirrssung, March 31.—In all his 110 years of life, William Hylens of Turtle Creek, never endured another winter as cold as the last, he says. As far lack as a ged Turtle Creek folk can remember. Bills made faily visits to the post office in all kinds of weather.

Here is mouth, thus proving their shift; and the sality taken in life ability taken in life and the season has fust been reported to Conservation. Commissioner George D Pratt from the Carskill Mountain region the carskill Mountain region to the sality of the season has fust been reported to Conservation. Commissioner George D Pratt from the Carskill Mountain region to the sality of the season has fust been reported to Conservation. Commissioner George D Pratt from the Carskill Mountain region one hour. "There's one thing in our fact a this daylight saving, glaculated Mountain season before night interferes with our offered as a ged Turtle Creek folk can remember. Bills made faily visits to the post of the State preserve before the work of the forest rangers succeeded in bringing it under course."

He has been constant to start something the shift of the sality of the forest rangers an earlier start to start something the sality of the
